

LOVE YOUR SPACE

Right fit for
your home

Home is always special

a place for us to be ourselves, kick back and get comfortable.

While we spare no efforts to be home proud, we probably made some compromises, as home space is getting smaller.

That said; sometimes it's all about the perfect fit.

At SNUG, we believe there's always the right furniture for your home space. And that applies for both your indoor and outdoor space.

Why **SNUG**?

Well... why not?

We believe furniture can be fun and it should be.

Rethink rattan furniture, for it is suitable both outdoors and indoors.

Specialising in design and creation of synthetic rattan, we give a new spin (and pop of colour) to rattan furniture.

Be assured of its quality, as every piece is hand-woven from our factory in Indonesia and fortified with aluminium frames.

So you know you will enjoy your furniture for years to come.

About Us

We are...

A Singapore-based furniture company with a belief in adding colour to the world we know. More importantly, we want you to rethink what you've come to expect from synthetic rattan furniture.

We create...

Beautiful synthetic rattan furniture created direct from our factory in Indonesia.

Why our synthetic rattan furniture?

Personal preference aside, we believe the pros of synthetic rattan outweigh that of natural rattan.

It's **cost effective**, which means you can own a piece (or three) of quirky furniture at a lesser amount than natural rattan.

It's **durable** so that vibrant colour you love will last. Who knows, it might even become an heirloom (of sorts) for the next generation.

It's produced with a little **TLC** and more. Each piece of our furniture is hand-woven and made with love.

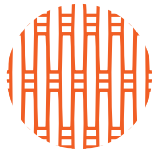

It's **100% recyclable**; after all, we want to do our part for the environment.

It's relatively **fuss-free maintenance**. Simply wash away dirt with warm, soapy water and your furniture will look better than ever.

Just to add on, our furniture is also fortified with quality **aluminium frames**, so you don't need to worry about rust and all that finicky stuff.

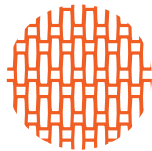

Types of weaves

We have a selection of weaves that will complement different designs.

Polypeel

Flat and half oval, this weave is available in different measurements and is one of the more popular weave types in the market.

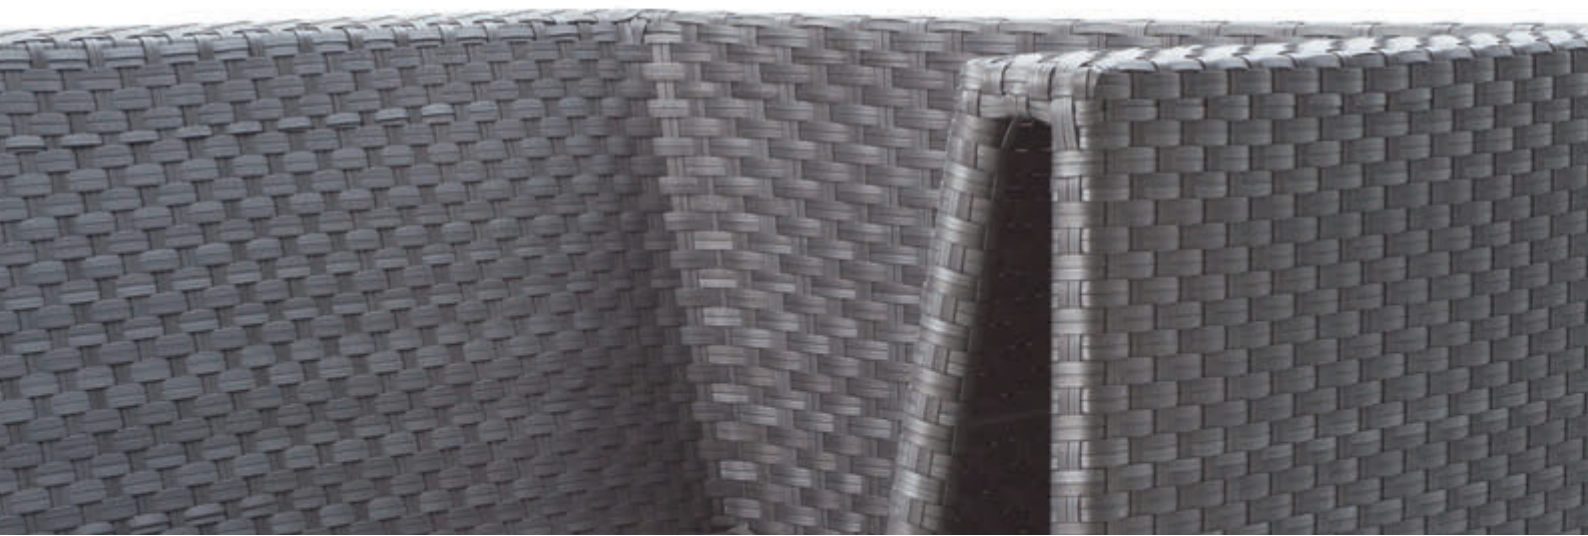

Polyrod

Each weave is round and available in different measures as well as different textures.

Polystrap

Of rectangular shape and flat, there are different sizes and textures available.
